Ref: Water Quality

Dear Mr. Snow:

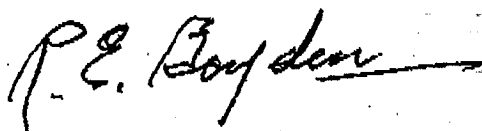

At the public meeting in Durham, Ca. on December 9, you and I agreed to meet with you and members of your staff that were as knowledgeable as we are about the delta. We were to discuss a mechanism that would improve water quality, save millions of acre feet of water and could be the most valuable element of your program. We have been working on it for over 18 years.

It is important that we meet soon.

The Dutch have been doing this very successfully for years.

Please call me - (530) 534-8843

Sincerely,

Robert E. Boyden
